

ANNUAL INDEXES

Vol. 2-2003

CONTENTS

ISSUE 1

Review article

- MAURO ANTONGIOVANNI, ARIANNA BUCCIONI, FRANCESCO PETACCHI,
PIERLORENZO SECCHIARI, MARCELLO MELE, ANDREA SERRA** 3
Upgrading the lipid fraction of foods of animal origin by dietary means: rumen activity
and presence of trans fatty acids and CLA in milk and meat

Papers

- ANNA NUDDA, MARIA FELIGINI, GIANNI BATTACONE,
NICOLÒ PIETRO PAOLO MACCIOTTA, GIUSEPPE PULINA** 29
Effects of lactation stage, parity, b-lactoglobulin genotype and milk SCC
on whey protein composition in Sarda dairy ewes
- FULVIA BOVERA, MAURO SPANGHERO, GIANLUCA GALASSI,
FRANCESCO MASOERO, ARIANNA BOCCIONI** 41
Repeatability and reproducibility of the Cornell Net Carbohydrate
and Protein System analytical determinations
- CARMELO DI MEO, GIAMPIERO STANCO, GIOVANNI PICCOLO, SYLVIE TARANTO,
MARIA PIA GAZANEO, ANTONINO NIZZA** 51
Productive performance of rabbits according to pre-weaning solid feed and milk intake
- ORESTE FRANCI, GUSTAVO CAMPODONI, RICCARDO BOZZI, CAROLINA PUGLIESE,
ANNA ACCIAIOLI, GUSTAVO GANDINI** 59
Productivity of Cinta Senese and Large White x Cinta Senese pigs reared outdoors
in woodlands and indoors. 2. Slaughter and carcass traits

Short communication

- MIRELLA GRAZIANO, MARIASILVIA D'ANDREA, ANTONELLA ANGIOLILLO,
RAFFAELLA LAGONIGRO, FABIO PILLA** 67
A new polymorphism in goat β -lactoglobulin promoter region

ASPA Commissions' activity

- ASPA COMMISSION "NUTRIENT REQUIREMENTS OF HEAVY PIG"** 73
A methodological approach to assess nutrient requirements of heavy pigs in Italy

CONTENTS

ASPA COMMISSION "PROBLEMS CONCERNING OVINE MILK CLOTTING APTITUDE"	89
Evaluation of ovine milk clotting aptitude	
Editorial policies and procedures	99

ISSUE 2

Papers

ANNA ACCIAIOLI, LARA PIANACCIOLI, GUSTAVO CAMPODONI, RICCARDO BOZZI, CAROLINA PUGLIESE, ORESTE FRANCI	107
Total apparent digestibility and nitrogen balance in Cinta Senese pigs: utilization of field bean (<i>Vicia faba L.</i>)	
MARIA GRAZIA MANGIAGALLI, GUGLIELMO SCANDOLARA, STEFANO PAOLO MARELLI, MARIAGRAZIA GIULIANI, LUIGI GUIDOBONO CAVALCHINI	115
Characteristics of reared game pheasant (<i>Phasianus colchicus</i>)'s egg	
FRANCESCA MARIA SARTI, LORENZO CASTELLI, DEBORA BOGANI, FRANCESCO PANELLA	123
The measurement of chest girth as an alternative to weight determination in the performance recording of meat sheep	
ANGELA GABRIELLA D'ALESSANDRO, GIOVANNI MARTEMUCCI	131
Use of purified FSH and LH for embryo production, cryopreservation by conventional freezing or vitrification and transfer of embryos in dairy ewes	
IBRAHIM KAYA, CAN UZMAY, ATTILA KAYA, YAVUZ AKBAŞ	141
Comparative analysis of milk yield and reproductive traits of Holstein Friesian cows born in Turkey or imported from Italy and kept on farms under the Turkish-ANAFI project	

Short communications

LORRAINE PARISET, ALESSIO VALENTINI	151
A simple PCR-RFLP test for direct identification of Melanocortin Receptor 1 (MC1R) alleles causing red coat colour in Holstein cattle	
RAJ KUMAR BOSE, KHONDOKER MOAZZEM HOSSAIN, BIJON KUMAR SIL, MOHAMMED TAIMUR	157
Comparative sero evaluation of live and killed Gumboro vaccine in broilers	

ISSUE 3

Papers

RICCARDO FORTINA, VANDA MALFATTO, ANTONIO MIMOSI, KAIJUN GUO, ENZO TARTARI	171
The establishment of a database of Italian feeds for the Cornell Net Carbohydrate and Protein System	

CONTENTS

EDO D'AGARO, DOMENICO LANARI	181
Effects of dietary energy content on the voluntary feed intake and blood parameters of sea bass (<i>Dicentrarchus labrax L.</i>)	
CARLO FINOLI, ANGELA VECCHIO	191
Occurrence of aflatoxins in feedstuff, sheep milk and dairy products in Western Sicily	
AGOSTINO SEVI, LUIGI TAIBI, MARZIA ALBENZIO, GIOVANNI ANNICCHIARICO, ROSARIA MARINO, MARIANGELA CAROPRESE	197
Influence of ventilation regimen on micro-environment and on ewe welfare and milk yield in summer	
MARTINO CASSANDRO, PAOLO CARNIER, LUIGI GALLO, GIOVANNI BITTANTE	213
Adequacy of genetic evaluation of dairy cows for milk yield using different testing schemes	
ARIANNA BRUZZONE, DANIELA IAMARTINO, MICHELE BLASI, FABIO PILLA	223
The Pentro horse: genetic characterization by microsatellite markers	
MARIA FEDERICA TROMBETTA, ADALBERTO FALASCHINI	231
Influence of L-Carnitine on fitness and oxidative stress parameters in Trotter Horses subjected to Laval's test	

ISSUE 4

Papers

FLAVIANA GOTTARDO, REBECCA RICCI, GIANLUCA FREGOLENT, LICIA RAVAROTTO, GIULIO COZZI	243
Welfare and meat quality of beef cattle housed on two types of floors with the same space allowance	
DANIELA MEGGIOLARO, FRANCA PORCELLI, ANNA LANGE CONSIGLIO, ANTINO CARNEVALI, PAOLA CREPALDI, LUCIANO MOLteni, BRUNO FERRANDI	255
Effect of lipid peroxidation on the immunocytochemical detection of a leukocyte antigenic determinant in fresh and cryopreserved bovine spermatozoa	
GIAMPIERO STANCO, CARMELO DI MEO, GIOVANNI PICCOLO, ANTONINO NIZZA	265
Effect of storage duration on frozen inoculum to be used for the in vitro gas production technique in rabbit	
PROCEEDINGS OF THE SYMPOSIUM	271
<i>Effects of the robotic milking system on milk quality with reference to typical products</i>	
GIACOMO PIRLO	273
Introduction	

CONTENTS

ALFONSO ZECCONI, RENATA PICCININI, GIUSEPPE CASIRANI, ENRICA BINDA, LUCIANO MIGLIORATI	275
Effects of automatic milking system on teat tissues, intramammary infections and somatic cell counts	
MORTEN DAM RASMUSSEN, LOTTE BACH LARSEN	283
Milking hygiene: new issues and opportunities from automatic milking	
KEES DE KONING, BETSIE SLAGHUIS, YVONNE VAN DER VORST	291
Robotic milking and milk quality: effects on bacterial counts, somatic cell counts, freezing point and free fatty acids	
FABIO ABENI, LUIGI DEGANO, ROBERTO GIANGIACOMO,	301
MARISANNA SPERONI, GIACOMO PIRLO Robotic milking and milk quality: effects on the cheese-making properties of milk	
Abstracts of the oral communications	313
