

CONTENTS

(based on prevalent subjects)

Breeding, genetics and reproduction

- Issues and perspectives in dairy sheep breeding (review article) 5
- Genetic polymorphism of the k-casein (CSN3) gene in goats reared in Southern Italy (short communication) 97
- Post-thaw survival and acrosome integrity of spermatozoa of Leccese rams frozen in different seasons with a milk-egg yolk extender 139
- Genetic study of Murgese horse from genealogical data and microsatellites (short communication) 197
- Results from an explorative screening program for elbow dysplasia in some breeds of dogs in Italy 233
- Typing of Poultry Influenza Virus (H5 and H7) by Reverse Transcription-Polymerase Chain Reaction 266
- Prevalence of *Campylobacter jejuni* in poultry breeder flocks 269
- Big liver and spleen disease in broiler breeders in Italy (case report) 303
- The control of reproduction in finfish species through GnRH treatments (review article) 345
- Comparative study on milt quality features of different finfish species 355
- Genotoxic activity of the Fumonisin B1 mycotoxin in cultures of bovine lymphocytes 395

Ruminant nutrition, production, growth and development

- Effect of urea supplemented and urea treated straw based diet on milk urea concentration in crossbred Karan-Fries cows 25
- Influence of dietary starch contents on milk composition of Friesian cows in early lactation 35
- Feeding behaviour, digestibility, energy balance and productive performance of lactating goats fed forage-based and forage-free diets 71
- The influence of pregnancy and the beginning of lactation on pelage traits in cashmere goats 85
- Genetic polymorphism of the k-casein (CSN3) gene in goats reared in Southern Italy (short communication) 97
- On the development of a monitoring scheme of buffalo welfare at farm level (review article) 115
- Effects of two different prepartum diets on some metabolic traits and productive response in multiparous Holstein cows in early lactation 127
- Effects of alfalfa germplasm and stage of maturity on digestive process and productive response of dairy cows fed alfalfa hay-based diets 211
- On-farm welfare assessment in dairy cattle and buffaloes: evaluation of some animal-based parameters 223
- Physiological and pathological adaptations in dairy cows that may increase susceptibility to periparturient diseases and disorders (review article) 323

CONTENTS

(based on prevalent subjects)

- Multivariate factor analysis of Girgentana goat milk composition 403
- Milk composition and feeding in the Italian dairy sheep (review article) 5 (S.1)
- Development and evaluation of a model to predict sheep nutrient requirements and feed utilisation 15 (S.1)
- Prediction of feed intake in the Italian dairy sheep (review article) 35 (S.1)
- Neutral Detergent Fibre (NDF) and Non Structural Carbohydrate (NSC) requirements in the nutrition of dairy ewes (review article) 45 (S.1)
- Lipid requirements in the nutrition of dairy ewes (review article) 53 (S.1)
- Mineral requirements of dairy sheep (review article) 63 (S.1)
- Vitamin and water requirements of dairy sheep (review article) 75 (S.1)

Non-ruminant nutrition, production, growth and development

- Raw Pea (*Pisum sativum*), raw Faba bean (*Vicia faba* var. *Minor*) and raw Lupin (*Lupinus alba* var. *Multitalia*) as alternative protein sources in broiler diets 59
- Trend of energy and nitrogen utilization of high fibre diets in pigs from 100 to 160 kg bodyweight 149
- Effect of the partial replacement of fish meal and oil by vegetable products on performance and quality traits of juvenile shi drum (*Umbrina cirrosa* L.) 159
- Efficacy in the field of two anticoccidial vaccines for broilers 259
- Field trials with the use of a live attenuated temperature-sensitive vaccine for the control of *Mycoplasma gallisepticum* infection in meat-type turkeys 282
- Preliminary results of an influenza surveillance in wild birds, game birds, domestic ducks and geese in North Eastern Italy 292
- *Ascaridia galli*: a report of erratic migration (case report) 310
- Alternative plant protein sources in sea bass diets 365
- Use of centrifuged and preserved microalgae for feeding juvenile Manila clam (*Tapes philippinarum*): effects on growth and fatty acid composition 375
- Raw and extruded pea (*Pisum sativum*) and lupin (*Lupinus albus* var. *Multitalia*) seeds as protein sources in weaned piglets' diets: effect on growth rate and blood parameters 385

Aquaculture

- Effect of the partial replacement of fish meal and oil by vegetable products on performance and quality traits of juvenile shi drum (*Umbrina cirrosa* L.) 159
- First haematic results for the sea bass (*Dicentrarchus labrax*) metabolic profile assessment ... 167
- The relative absorption of fatty acids in brown trout (*Salmo trutta*) fed a commercial extruded pellet coated with different lipid sources 241

CONTENTS

(based on prevalent subjects)

- The control of reproduction in finfish species through GnRH treatments (review article) 345
- Comparative study on milt quality features of different finfish species 355
- Alternative plant protein sources in sea bass diets 365
- Use of centrifuged and preserved microalgae for feeding juvenile Manila clam (*Tapes philippinarum*): effects on growth and fatty acid composition 375

Feed science, by-products and feed technology

- Effect of urea supplemented and urea treated straw based diet on milk urea concentration in crossbred Karan-Fries cows 25
- Quanti-qualitative evaluation of pectins in the dietary fibre of 24 foods 49
- Raw Pea (*Pisum sativum*), raw Faba bean (*Vicia faba* var. *Minor*) and raw Lupin (*Lupinus alba* var. *Multitalia*) as alternative protein sources in broiler diets 59
- Effect of the partial replacement of fish meal and oil by vegetable products on performance and quality traits of juvenile shi drum (*Umbrina cirrosa* L.) 159
- Effect of extrusion, expansion and toasting on the nutritional values of peas, faba beans and lupins 177
- Simplified HPLC-UV method for the determination of α -tocopherol in plasma (short communication) 191
- Effects of alfalfa germplasm and stage of maturity on digestive process and productive response of dairy cows fed alfalfa hay-based diets 211
- The relative absorption of fatty acids in brown trout (*Salmo trutta*) fed a commercial extruded pellet coated with different lipid sources 241
- Alternative plant protein sources in sea bass diets 365
- Raw and extruded pea (*Pisum sativum*) and lupin (*Lupinus albus* var. *Multitalia*) seeds as protein sources in weaned piglets' diets: effect on growth rate and blood parameters 385
- Genotoxic activity of the Fumonisin B1 mycotoxin in cultures of bovine lymphocytes 395
- Neutral Detergent Fibre (NDF) and Non Structural Carbohydrate (NSC) requirements in the nutrition of dairy ewes (review article) 45 (S.1)

Behaviour, welfare and management

- Feeding behaviour, digestibility, energy balance and productive performance of lactating goats fed forage-based and forage-free diets 71
- On the development of a monitoring scheme of buffalo welfare at farm level (review article) 115
- On-farm welfare assessment in dairy cattle and buffaloes: evaluation of some animal-based parameters 223

CONTENTS

(based on prevalent subjects)

- Evaluation of an additive efficacy in broiler litter microbial level control in field: preliminary results 255
- Plasma corticosterone levels in laying hens from three different housing systems: preliminary results 276
- Antimicrobial susceptibility of *Salmonella* spp. strains isolated from Layer Hens in Campania Region from 2000 to 2003 279
- The alterations of plumage of parasitic origin 296
- Physiological and pathological adaptations in dairy cows that may increase susceptibility to periparturient diseases and disorders (review article) 323

Hygiene and health

- On the development of a monitoring scheme of buffalo welfare at farm level (review article) ... 115
- Effects of two different prepartum diets on some metabolic traits and productive response in multiparous Holstein cows in early lactation 127
- Effects of two different prepartum diets on some metabolic traits and productive response in multiparous Holstein cows in early lactation 127
- On-farm welfare assessment in dairy cattle and buffaloes: evaluation of some animal-based parameters 223
- Results from an explorative screening program for elbow dysplasia in some breeds of dogs in Italy 233
- Evaluation of an additive efficacy in broiler litter microbial level control in field: preliminary results 255
- Efficacy in the field of two anticoccidial vaccines for broilers 259
- Epidemiological study on circulation of Infectious Bronchitis Virus strains in North Eastern Italy 263
- Typing of Poultry Influenza Virus (H5 and H7) by Reverse Transcription-Polymerase Chain Reaction 266
- Prevalence of *Campylobacter jejuni* in poultry breeder flocks 269
- Evaluation of an egg yolk enzyme-linked immunosorbent assay antibody test and its use to assess the prevalence of *Mycoplasma gallisepticum* infection in laying hens in Italy 272
- Antimicrobial susceptibility of *Salmonella* spp. strains isolated from Layer Hens in Campania Region from 2000 to 2003 279
- Field trials with the use of a live attenuated temperature-sensitive vaccine for the control of *Mycoplasma gallisepticum* infection in meat-type turkeys 282
- Serological evidences showing the involvement of free-living pheasants in the influenza ecology 287
- Preliminary results of an influenza surveillance in wild birds, game birds, domestic ducks and geese in North Eastern Italy 292

CONTENTS

(based on prevalent subjects)

- The alterations of plumage of parasitic origin 296
- Detection of Caliciviruses in young pheasants (*Phasianus colchicus*) with enteritis in Italy (case report) 300
- Big liver and spleen disease in broiler breeders in Italy (case report) 303
- *Sancassania berlesei* (Michael, 1903): an opportunistic mite infesting litters in poultry farms causing dermatitis in humans and animals (case report) 306
- *Ascaridia galli*: a report of erratic migration (case report) 310
- Physiological and pathological adaptations in dairy cows that may increase susceptibility to periparturient diseases and disorders (review article) 323
- Genotoxic activity of the Fumonisin B1 mycotoxin in cultures of bovine lymphocytes 395

Meat science and technology

- Trend of energy and nitrogen utilization of high fibre diets in pigs from 100 to 160 kg bodyweight 149

Dairy science and technology

- Issues and perspectives in dairy sheep breeding (review article) 5
- Influence of dietary starch contents on milk composition of Friesian cows in early lactation 35
- Feeding behaviour, digestibility, energy balance and productive performance of lactating goats fed forage-based and forage-free diets 71
- Genetic polymorphism of the k-casein (CSN3) gene in goats reared in Southern Italy (short communication) 97
- Effects of two different parturient diets on some metabolic traits and productive response in multiparous Holstein cows in early lactation 127
- Effects of alfalfa germplasm and stage of maturity on digestive process and productive response of dairy cows fed alfalfa hay-based diets 211
- Multivariate factor analysis of Girgentana goat milk composition 403
- Milk composition and feeding in the Italian dairy sheep (review article) 5 (S.1)
- Development and evaluation of a model to predict sheep nutrient requirements and feed utilisation 15 (S.1)
- Prediction of feed intake in the Italian dairy sheep (review article) 35 (S.1)
- Neutral Detergent Fibre (NDF) and Non Structural Carbohydrate (NSC) requirements in the nutrition of dairy ewes (review article) 45 (S.1)
- Lipid requirements in the nutrition of dairy ewes (review article) 53 (S.1)
- Mineral requirements of dairy sheep (review article) 63 (S.1)
