

CONTENTS

(based on prevalent subjects)

Breeding, genetics and reproduction

- An observation study on the effects of queen age on some characteristics of honey bee colonies 19
- Retrospective analysis of dry period length in Italian Holstein cows 65
- Prion protein gene frequencies in three Sicilian dairy sheep populations. 87
- Estimation of genetic parameters for lamb weight at various ages in Mehrabani sheep (short communication) 95
- Effects of exogenous melatonin treatment on out-of-season ram fertility 199
- Genetic characterization of the Bardigiano horse using microsatellite markers (short communication) 243
- Pheasant (*Phasianus colchicus*) hens of different origin. Dispersion and habitat use after release. 321
- Hatchery production of European lobster (*Homarus gammarus*, L.): broodstock management and effects of different holding systems on larval survival. 351
- Antimicrobial resistance, class 1 and 2 integrons and gene cassettes in avian *Escherichia coli*. 391
- Toxin genotyping of *Clostridium perfringens* field strains isolated from healthy and diseased chickens. 397
- Observation by microsatellite DNA analysis of sperm usage in naturally mated honeybee queens (*Apis mellifera ligustica*) over a period of two years 465
- Effect of some parental and environmental factors on some reproductive traits of Japanese quails 479
- Identification of polymorphism in the *SCL24A5* gene of cattle (short communication) . . . 505

Ruminant nutrition, production, growth and development

- Use of maize silage in beef cattle feeding during the finishing period 39
- Retrospective analysis of dry period length in Italian Holstein cows 65
- Spraying effects on some physiological and behavioural traits of goats in a subtropical climate 77
- Estimation of genetic parameters for lamb weight at various ages in Mehrabani sheep (short communication). 95
- Effect of corn and beet pulp based concentrate on ruminal parameters in wethers fed with fresh forage 141

CONTENTS

(based on prevalent subjects)

• Estimated requirements of net energy, digestible protein and NDF intake of Chianina young bulls from 400 kg liveweight to slaughter	153
• Effects of exogenous melatonin treatment on out-of-season ram fertility	199
• Stress responses in lambs castrated with three different methods	207
• Relationships between dietary factors and milk urea nitrogen level in goats grazing herbaceous pasture	219
• Effects of two protein sources and energy level of diet on the performance of young Marchigiana bulls. 1. <i>Infra vitam</i> performance and carcass quality	259
• Effects of two protein sources and energy level of diet on the performance of young Marchigiana bulls. 2. Meat quality	271
• Buffalo behavioural response to machine milking in early lactation	287
• Effect of soybean oil supplementation on milk fatty acid composition from Saanen goats fed diets with different forage:concentrate ratios	297
• Cheese making aptitude and the chemical and nutritional characteristics of milk from Massese ewes	419
• Bioelectrical impedance analysis for the prediction of hot carcass weight in buffalo calf (short communication)	513

Non-ruminant nutrition, production, growth and development

• An observation study on the effects of queen age on some characteristics of honey bee colonies	19
• Effects of <i>Lactobacillus acidophilus</i> D2/CSL on laying hen performance	27
• Beneficial effects of different dietary oils on cholesterol level and fatty acids profile of turkey pectoral muscle	161
• The effect of different oil supplementations on laying performance and fatty acid composition of egg yolk	173
• Effects of a gluco-oligosaccharide supplement on the morphological characteristics of the gastro-intestinal tract and growth performance in weaned piglets	185
• Effects of prebiotic (Fermacto) in low protein diet on some blood parameters and intestinal microbiota of broiler chicks	313
• Pheasant (<i>Phasianus colchicus</i>) hens of different origin. Dispersion and habitat use after release	321
• Hatchery production of European lobster (<i>Homarus gammarus</i> , L.): broodstock management and effects of different holding systems on larval survival	351

CONTENTS

(based on prevalent subjects)

- Effect of two different protein/fat ratios of the diet on meagre (*Argyrosomus regius*) traits 363
- Preliminary researches to standardize a method of quantitative analysis on *Lactobacillus acidophilus* in poultry feed 405
- The impact of hanging-cleaning husbandry practices on Mediterranean mussels, *Mytilus galloprovincialis* Lmk, cultivated in the Mar Piccolo (Taranto, Ionian Sea, Italy) 449
- Effect of some parental and environmental factors on some reproductive traits of Japanese quails 479
- Observations on the occurrence of *Heterakis gallinarum* in laying hens kept on soil (short communication) 487
- A survey on the occurrence of ochratoxin A in feeds and sera collected in conventional and organic poultry farms in Northern Italy (short communication) 495

Aquaculture

- Wild trout responses to a stress experience following confinement conditions during the spawning season 5
- Hatchery production of European lobster (*Homarus gammarus*, L.): broodstock management and effects of different holding systems on larval survival 351
- Effect of two different protein/fat ratios of the diet on meagre (*Argyrosomus regius*) traits 363
- Seasonal variations in serum lipids, lipoproteins and some haematological parameters of chub (*Leuciscus cephalus*) 439
- The impact of hanging-cleaning husbandry practices on Mediterranean mussels, *Mytilus galloprovincialis* Lmk, cultivated in the Mar Piccolo (Taranto, Ionian Sea, Italy) 449

Feed science, by-products and feed technology

- Effects of *Lactobacillus acidophilus* D2/CSL on laying hen performance 27
- Use of maize silage in beef cattle feeding during the finishing period 39
- Effect of corn and beet pulp based concentrate on ruminal parameters in wethers fed with fresh forage 141

CONTENTS

(based on prevalent subjects)

- Beneficial effects of different dietary oils on cholesterol level and fatty acids profile of turkey pectoral muscle. 161
- The effect of different oil supplementations on laying performance and fatty acid composition of egg yolk 173
- Relationships between dietary factors and milk urea nitrogen level in goats grazing herbaceous pasture 219
- Effects of two protein sources and energy level of diet on the performance of young Marchigiana bulls. 1. *Infra vitam* performance and carcass quality 259
- Effects of two protein sources and energy level of diet on the performance of young Marchigiana bulls. 2. Meat quality 271
- Preliminary researches to standardize a method of quantitative analysis on *Lactobacillus acidophilus* in poultry feed. 405
- A survey on the occurrence of ochratoxin A in feeds and sera collected in conventional and organic poultry farms in Northern Italy (short communication) 495

Behaviour, welfare and management

- Wild trout responses to a stress experience following confinement conditions during the spawning season 5
- Spraying effects on some physiological and behavioural traits of goats in a subtropical climate 77
- Stress responses in lambs castrated with three different methods 207
- Buffalo behavioural response to machine milking in early lactation. 287
- Pheasant (*Phasianus colchicus*) hens of different origin. Dispersion and habitat use after release 321
- Simulating Brown hare (*Lepus europaeus* Pallas) dispersion: a tool for wildlife management of wide areas 335
- The impact of hanging-cleaning husbandry practices on Mediterranean mussels, *Mytilus galloprovincialis* Lmk, cultivated in the Mar Piccolo (Taranto, Ionian Sea, Italy) 449

Hygiene and health

- Wild trout responses to a stress experience following confinement conditions during the spawning season 5

CONTENTS

(based on prevalent subjects)

• Effects of <i>Lactobacillus acidophilus</i> D2/CSL on laying hen performance	27
• Aflatoxins absorption in the gastro-intestinal tract and in the vaginal mucosa in lactating dairy cows	53
• Prion protein gene frequencies in three Sicilian dairy sheep populations.	87
• Detection of pathological lesions in slaughtered rabbits (short communication)	105
• Prevalence of <i>Toxoplasma gondii</i> antibodies and intestinal parasites in stray cats from Nigde, Turkey (short communication)	113
• Effects of a gluco-oligosaccharide supplement on the morphological characteristics of the gastro-intestinal tract and growth performance in weaned piglets	185
• Controlling <i>Varroa destructor</i> (Acari: Varroidae) in honeybee <i>Apis mellifera</i> (Hymenoptera: Apidae) colonies by using Thymovar® and BeeVital®	237
• Effects of prebiotic (Fermacto) in low protein diet on some blood parameters and intestinal microbiota of broiler chicks	313
• Occurrence of pathogenic and faecal <i>Escherichia coli</i> in layer hens	385
• Antimicrobial resistance, class 1 and 2 integrons and gene cassettes in avian <i>Escherichia coli</i>	391
• Toxin genotyping of <i>Clostridium perfringens</i> field strains isolated from healthy and diseased chickens	397
• Survey of thermotolerant <i>Campylobacter</i> in pheasant (<i>Phasianus colchicus</i>).	401
• Effect of some parental and environmental factors on some reproductive traits of Japanese quails	479
• Observations on the occurrence of <i>Heterakis gallinarum</i> in laying hens kept on soil (short communication)	487
• A survey on the occurrence of ochratoxin A in feeds and sera collected in conventional and organic poultry farms in Northern Italy (short communication)	495

Meat science and technology

• Estimated requirements of net energy, digestible protein and NDF intake of Chianina young bulls from 400 kg liveweight to slaughter	153
• Beneficial effects of different dietary oils on cholesterol level and fatty acids profile of turkey pectoral muscle.	161

CONTENTS

(based on prevalent subjects)

- Effects of two protein sources and energy level of diet on the performance of young Marchigiana bulls. 1. *Infra vitam* performance and carcass quality 259
- Effects of two protein sources and energy level of diet on the performance of young Marchigiana bulls. 2. Meat quality 271
- Effect of two different protein/fat ratios of the diet on meagre (*Argyrosomus regius*) traits 363
- A study of chemical profiles and appearance of white crystals in Istrian dry-cured ham: effect of desalting (short communication) 373
- The impact of hanging-cleaning husbandry practices on Mediterranean mussels, *Mytilus galloprovincialis* Lmk, cultivated in the Mar Piccolo (Taranto, Ionian Sea, Italy) 449
- Bioelectrical impedance analysis for the prediction of hot carcass weight in buffalo calf (short communication) 513

Dairy science and technology

- Retrospective analysis of dry period length in Italian Holstein cows 65
