

CONTENTS

(based on prevalent subjects)

Breeding, genetics and reproduction

- Inheritance of Suri and Huacaya type of fleece in Alpaca. 83
- Developmental changes of jejunal brush-border enzyme activity in growing Jinhua gilts. 143
- Effect of rearing system and season on the performance and egg characteristics of Ancona laying hens 175
- Characterization and polymorphism screening of IGF-I and prolactin genes in Nelore heifers (Short communication) 277
- Development of a rapid immunobinding test for *Mycoplasma bovis* cultural isolates in the genital tract of heifers (Short communication) 285
- Molecular genetics in aquaculture (Review article). 299
- Economic values for performance and functional traits in dairy sheep 341
- Estimation of economic values in three breeding perspectives for longevity and milk production traits in Holstein dairy cattle in Iran 359
- Serial Analysis of Gene Expression (SAGE) in the skeletal muscle of pig. 417
- Effects of selection for yolk cholesterol on growth and meat quality in Japanese quail (*Coturnix coturnix japonica*) 457
- Some new aspects of nutrition, health conditions and fertility of intensively reared dairy cows (Review article). 491
- Cashmere production from Scottish Cashmere kids and crossbreed Scottish Cashmere x Jonica kids. 647
- Carcass traits of improved and indigenous lamb breeds of North-Western Turkey under an intensive production system 663
- Genetic structure of three Croatian horse breeds: implications for their conservation strategy 677
- Effect of sex and season of birth on Gompertz growth curve parameters in "Nero di Parma" pigs (Short communication) 719
- Comparison of muscle fibre characteristics and production traits among offspring from Meishan dams mate to different sires (Short communication). 727
- Estimation of genetic parameters for body weight in Charolais calves in Slovenia (Short communication). 735
- Does Vitamin E or Vitamin E plus Selenium improve reproductive performance of rams during hot weather? (Short communication) 743
- Induction of sexual activity in male and female farmed ostriches (*Struthio camelus*) with GnRH implant 789

Ruminant nutrition, production, growth and development

- Main causes of poor welfare in intensively reared dairy cows (Review article). 45(S.1)

CONTENTS

(based on prevalent subjects)

- Main critical factors affecting the welfare of beef cattle and veal calves raised under intensive rearing systems in Italy: a review (Review article) 67(S.1)
- Factors of welfare reduction in dairy sheep and goats (Review article)..... 81(S.1)
- The welfare of dairy buffalo (Review article)..... 103(S.1)
- A note on acoustic analysis of dairy calves' vocalizations at 1 day after separation from dam (Short communication)..... 113
- Welfare issues of modern deer farming (Review article)..... 205(S.1)
- Pea (*Pisum sativum*) in dairy cow diet: effect on milk production and quality 245
- Effects of calcium propionate by different numbers of applications in first week postpartum of dairy cows on hypocalcemia, milk production and reproductive disorders . 259
- Effects of rumen-protected methionine on milk production of dairy goats (Short communication)..... 271
- Model to evaluate welfare in dairy cow farms (Review article) 301(S.1)
- Towards the creation of a welfare assessment system in intensive beef cattle farms 325(S.1)
- Economic values for performance and functional traits in dairy sheep 341
- Monitoring the on-farm welfare of sheep and goats (Review article)..... 343(S.1)
- Positive indicators of cattle welfare and their applicability to on-farm protocols (Review article)..... 355(S.1)
- Estimation of economic values in three breeding perspectives for longevity and milk production traits in Holstein dairy cattle in Iran 359
- Effect of unsaturated fatty acid supplementation on performance and milk fatty acid profile in dairy cows fed a high fibre diet 391
- Oxidation and antioxidant status: effects on shelf-life of meat from Limousine cattle fed with supplements of α -tocopherol..... 405
- Some new aspects of nutrition, health conditions and fertility of intensively reared dairy cows (Review article) 491
- Methods for estimation of daily and lactation milk yields from alternative milk recording scheme in Holstein and Simmental cattle breeds 519
- Survey on conjugated linoleic acid (CLA) content and fatty acid composition of Grana Padano cheese produced in different seasons and areas 531
- Livestock systems and farming styles in Eastern Italian Alps: an on farm survey 541
- How to evaluate body conditions of red deer (*Cervus elaphus*) in an alpine environment?.... 555
- Cashmere production from Scottish Cashmere kids and crossbreed Scottish Cashmere x Jonica kids 647
- Carcass traits of improved and indigenous lamb breeds of North-Western Turkey under an intensive production system 663

CONTENTS

(based on prevalent subjects)

- Estimation of genetic parameters for body weight in Charolais calves in Slovenia (Short communication) 735
- Does Vitamin E or Vitamin E plus Selenium improve reproductive performance of rams during hot weather? (Short communication) 743

Non-ruminant nutrition, production, growth and development

- Influence of diet and rearing system on heavy pig performance, carcass and meat quality 23
- Influence of high levels of beet pulp in the diet on endocrine/metabolic traits, slaughter dressing percentage, and ham quality in Italian heavy pigs 37
- Evaluation of intestinal bacterial flora of conventional and organic broilers using culture-based methods 51
- Appraisal of ingestion and digestibility in growing rabbits using near infrared reflectance spectroscopy (NIRS) of feeds and faeces 75
- Assessment of welfare in pigs (Review article) 117(S.1)
- Effect of pasture in oak and chestnut groves on chemical and sensorial traits of cured lard of Cinta Senese pigs 131
- Developmental changes of jejunal brush-border enzyme activity in growing Jinhua gilts. 143
- Effects of whole wheat with or without xylanase supplementation on performance of layers and digestive organ development 155
- Welfare of broiler chickens (Review article) 161(S.1)
- Effects of two different rearing systems (organic and barn) on production performance, animal welfare traits and egg quality characteristics in laying hens 165
- Welfare issues of modern laying hen farming (Review article) 175(S.1)
- Effect of rearing system and season on the performance and egg characteristics of Ancona laying hens 175
- Effects of organic selenium supplemented to layer diet on table egg freshness and selenium content 189
- Welfare aspects in rabbit rearing and transport (Review article) 191(S.1)
- Welfare issues of horses: an overview and practical recommendations (Review article) , 219(S.1)
- Serial Analysis of Gene Expression (SAGE) in the skeletal muscle of pig 417
- A simplified approach to calculate slurry production of growing pigs at farm level 431
- Effects of selection for yolk cholesterol on growth and meat quality in Japanese quail (*Coturnix coturnix japonica*) 457
- Effect of oregano (*Oregano Onites*) on performance, hatchability and egg quality parameters of laying quails (*Coturnix coturnix japonica*) 467
- Effect of egg weight on chick weight, egg weight loss and hatchability in rock partridges (*A. graeca*) 567

CONTENTS

(based on prevalent subjects)

- Faba bean (*Vicia faba* var. *minor*) as a protein source for organic chickens: performance and carcass characteristics 575
- Effects of starter feeding time on body growth and viscera development of newly hatched chicks 585
- Effects of mannanoligosaccharide and/or organic acid mixture on performance, blood parameters and intestinal microbiota of broiler chicks 595
- Effect of oleic and conjugated linoleic acid in the diet of broiler chickens on the live growth performances, carcass traits and meat fatty acid profile 603
- Regression tree analysis for predicting slaughter weight in broilers 615
- Genetic structure of three Croatian horse breeds: implications for their conservation strategy 677
- Effect of an automatic feeding system on growth performance and feeding behaviour of pigs reared outdoors (Short communication) 705
- Effect of sex and season of birth on Gompertz growth curve parameters in "Nero di Parma" pigs (Short communication) 719
- Comparison of muscle fibre characteristics and production traits among offspring from Meishan dams mate to different sires (Short communication) 727
- Investigations of some parameters of natural immunity in meat turkeys reared outdoors ... 785
- Induction of sexual activity in male and female farmed ostriches (*Struthio camelus*) with GnRH implant 789

Aquaculture

- Farmed fish welfare-suffering assessment and impact on product quality (Review article) 139(S.1)
- Molecular genetics in aquaculture (Review article) 299
- Hazelnut meal in diets for seawater farmed rainbow trout (*Oncorhynchus mykiss*): effects on growth performance and body composition 625
- Numerical simulation of electro-fishing in seawater 633

Feed science, by-products and feed technology

- Sampling feed for mycotoxins: acquiring knowledge from food (Review article) 5
- Appraisal of ingestion and digestibility in growing rabbits using near infrared reflectance spectroscopy (NIRS) of feeds and faeces 75
- Effects of two different rearing systems (organic and barn) on production performance, animal welfare traits and egg quality characteristics in laying hens 165
- Effect of rearing system and season on the performance and egg characteristics of Ancona laying hens 175
- Effects of organic selenium supplemented to layer diet on table egg freshness and selenium content 189

CONTENTS

(based on prevalent subjects)

- Effects of compost organic amendments on chemical composition and *in vitro* digestibility of alfalfa (*Medicago sativa* L.) 201
- Impact of NDF degradability of corn silage on the milk yield potential of dairy cows 211
- Effect of fibrolytic enzymes and incubation pH on *in vitro* degradation of NDF extracts of alfalfa and orchardgrass 221
- Effect of three species of herbage (*Medicago sativa*, *Lolium multiflorum*, *Avena sativa*) on *in vitro* ruminal production of conjugated linoleic and vaccenic acids 231
- Pea (*Pisum sativum*) in dairy cow diet: effect on milk production and quality 245
- Effects of rumen-protected methionine on milk production of dairy goats (Short communication) 271
- Bioactive peptides in dairy products (Review article) 315
- Effect of oregano (*Oregano Onites*) on performance, hatchability and egg quality parameters of laying quails (*Coturnix coturnix japonica*) 467
- Faba bean (*Vicia faba* var. *minor*) as a protein source for organic chickens: performance and carcass characteristics 575
- Effect of oleic and conjugated linoleic acid in the diet of broiler chickens on the live growth performances, carcass traits and meat fatty acid profile 603
- Hazelnut meal in diets for seawater farmed rainbow trout (*Oncorhynchus mykiss*): effects on growth performance and body composition 625

Behaviour, welfare and management

- Role of the European Food Safety Authority (EFSA) in providing scientific advice on the welfare of food producing animals (Technical note) 9(S.1)
- Animal welfare: review on the scientific concept and definition (Review article) 21(S.1)
- Consumers' perception of farm animal welfare: an Italian and European perspective (Review article) 31(S.1)
- Main causes of poor welfare in intensively reared dairy cows (Review article) 45(S.1)
- Impact of bee pollinators on seed set and yield of *Vicia villosa* spp. *dasycarpa* (*Leguminosae*) grown under semiarid conditions 65
- Main critical factors affecting the welfare of beef cattle and veal calves raised under intensive rearing systems in Italy: a review (Review article) 67(S.1)
- Factors of welfare reduction in dairy sheep and goats (Review article) 81(S.1)
- Transmitter-equipped darts in a protocol for chemically immobilizing free-ranging red deer (*Cervus elaphus*) in Central Italy 93
- The welfare of dairy buffalo (Review article) 103(S.1)
- A note on acoustic analysis of dairy calves' vocalizations at 1 day after separation from dam (Short communication) 113

CONTENTS

(based on prevalent subjects)

- Assessment of welfare in pigs (Review article) 117(S.1)
- Farmed fish welfare-suffering assessment and impact on product quality (Review article) . 139(S.1)
- Welfare of broiler chickens (Review article) 161(S.1)
- Welfare issues of modern laying hen farming (Review article). 175(S.1)
- Welfare aspects in rabbit rearing and transport (Review article) 191(S.1)
- Welfare issues of modern deer farming (Review article). 205(S.1)
- Welfare issues of horses: an overview and practical recommendations (Review article) 219(S.1)
- Companion animal welfare and possible implications on the human-pet relationship (Review article). 231(S.1)
- Short-term stress: the case of transport and slaughter (Review article) 241(S.1)
- Animal welfare: neuro-cognitive approaches (Review article). 255(S.1)
- Some physiological and biochemical methods for acute and chronic stress evaluation in dairy cows (Review article) 265(S.1)
- Immune system response to stress factors (Review article) 287(S.1)
- Model to evaluate welfare in dairy cow farms (Review article) 301(S.1)
- Towards the creation of a welfare assessment system in intensive beef cattle farms 325(S.1)
- Monitoring the on-farm welfare of sheep and goats (Review article). 343(S.1)
- Positive indicators of cattle welfare and their applicability to on-farm protocols (Review article). 355(S.1)
- Livestock systems and farming styles in Eastern Italian Alps: an on-farm survey 541
- Do mood disorders play a role on pig welfare? (Research note) 691
- Effect of an automatic feeding system on growth performance and feeding behaviour of pigs reared outdoors (Short communication) 705

Hygiene and health

- Sampling feed for mycotoxins: acquiring knowledge from food (Review article). 5
- Evaluation of intestinal bacterial flora of conventional and organic broilers using culture-based methods 51
- Milk flow pattern, somatic cell count and teat apex score in primiparous dairy cows at the beginning of lactation 103
- Effects of calcium propionate by different numbers of applications in first week postpartum of dairy cows on hypocalcemia, milk production and reproductive disorders . 259
- Development of a rapid immunobinding test for *Mycoplasma bovis* cultural isolates in the genital tract of heifers (Short communication) 285
- Immune system response to stress factors (Review article) 287(S.1)

CONTENTS

(based on prevalent subjects)

- Bioactive peptides in dairy products (Review article) 315
- A simplified approach to calculate slurry production of growing pigs at farm level 431
- Some new aspects of nutrition, health conditions and fertility of intensively reared dairy cows (Review article) 491
- Livestock systems and farming styles in Eastern Italian Alps: an on-farm survey 541
- How to evaluate body conditions of red deer (*Cervus elaphus*) in an alpine environment? 555
- Effects of mannanoligosaccharide and/or organic acid mixture on performance, blood parameters and intestinal microbiota of broiler chicks 595
- Do mood disorders play a role on pig welfare? (Research note) 691
- Effect of an automatic feeding system on growth performance and feeding behaviour of pigs reared outdoors (Short communication) 705
- Application of a PCR method for the diagnosis of ulcerative enteritis: preliminary results . . . 757
- Diffusion of *Clostridium perfringens* NetB positive strains in healthy and diseased chickens . . 761
- Microbiological characteristics of poultry meats - Results of inspections carried out in the province of Milano, Italy 765
- Multiple antimicrobial resistance among Avian *Escherichia coli* strains in Albania 771
- Virulence - associated genes in Avian Pathogenic *Escherichia coli* of turkey 775
- Pathogenicity markers of *Clostridium* spp. in commercial turkeys 781
- Investigations of some parameters of natural immunity in meat turkeys reared outdoors 785
- Outbreak of pseudotuberculosis in commercial guinea fowls (*Numida meleagris*) (Case report) 793

Meat science and technology

- Influence of diet and rearing system on heavy pig performance, carcass and meat quality . . . 23
- Influence of high levels of beet pulp in the diet on endocrine/metabolic traits, slaughter dressing percentage, and ham quality in Italian heavy pigs 37
- Effect of pasture in oak and chestnut groves on chemical and sensorial traits of cured lard of Cinta Senese pigs 131
- Farmed fish welfare-suffering assessment and impact on product quality (Review article) 139(S.1)
- Short-term stress: the case of transport and slaughter (Review article) 241(S.1)
- Oxidation and antioxidant status: effects on shelf-life of meat from Limousine cattle fed with supplements of α -tocopherol 405
- Effects of selection for yolk cholesterol on growth and meat quality in Japanese quail (*Coturnix coturnix japonica*) 457

CONTENTS

(based on prevalent subjects)

- Faba bean (*Vicia faba* var. *minor*) as a protein source for organic chickens: performance and carcass characteristics 575
- Effect of oleic and conjugated linoleic acid in the diet of broiler chickens on the live growth performances, carcass traits and meat fatty acid profile 603
- Carcass traits of improved and indigenous lamb breeds of North-Western Turkey under an intensive production system 663
